Home Health services provide skilled nursing care for homebound persons. There must be a physician order. Other services available are physical, occupational and speech therapy; home health aide; dietary and social services. Medicare provides coverage for home health along with many insurance companies. The Hospital Discharge Planner or your nurse can contact the home health agency you have chosen and make the necessary arrangements. **Note:** Community Connection makes every effort to obtain the most updated information available, however no database is completely accurate at all times. Therefore, we encourage you to update any outdated information by contacting the Community Connection office at 208-737-2065 or <mailto:mindyh@mvrmc.org>
