## Welcome

The St. Luke's Athletic Training Residency Program would like to welcome you to the St. Luke's Health System.

The following document contains the policies and procedures of the Athletic Training Residency Program at St. Luke's. It is the goal of this document to clearly outline the policies and procedures of the residency program. The St. Luke's Athletic Training Residency Program assures equal opportunity for didactic instruction, clinical experience, and other educational activities for all residents in the program.

In addition to the policies set forth in this document residents are also required to review and follow policies established by St. Luke's Health System outlined in the systemwide policies and procedures handbook.

Sincerely,

A handwritten signature in cursive script, reading "Forrest Pecha" with "ATC, LAT" written in smaller letters below the signature.

Forrest Pecha, MS, LAT, ATC  
Athletic Training Residency Program Director

## Scope of Athletic Training Residency Policy & Procedure Manual

The information in this manual is not intended to be fully comprehensive. Additional policies for St Luke's Health System can be found in the St Luke's employee handbook and via the Human Resources website.

## St Luke's Health System:

### Mission

To improve the health of people in the communities we serve.

### Vision

To be the community's trusted partner in providing exceptional, patient-centered care.

### ICARE Values

Provide the guidelines and expectations for our daily efforts. As a member of this outstanding team, you will be called upon to practice these values every day. This consistency of each of us living our values is the bedrock upon which St. Luke's operates.

- Integrity
- Compassion
- Accountability
- Respect
- Excellence

### Operational Philosophy

We are dedicated to the people at St. Luke's who provide and support patient care.

We will maintain an environment that fosters their continuing education and development.

We are committed to remaining financially strong in order to continuously improve the quality of our service.

We will maintain positive relationships with the communities we serve through effective communications and cooperative efforts.

We will provide health care, education and medical research in support of our fundamental mission.

We are committed to providing health care to those in need, regardless of their ability to pay.

## Athletic Training Residency Program:

### Program Background

St Luke's Athletic Training Residency (SLATR) Program was founded in the fall of 2011. The twelve (12) month post professional educational program for certified athletic trainers (AT) within St. Luke's Health System was created to provide advanced preparation of athletic training practitioners through a planned program of clinical and didactic education in specialized content area of orthopedics. St. Luke's Post-Professional Athletic Training Residency was the third athletic training residency program accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The residency is housed with the physician practice setting at St Luke's Orthopedics using an evidence-based approach to enhance the quality of patient care, optimize patient outcomes, and improve patients' health-related quality of life.

As part of this program, you'll practice advanced clinical decision-making skills as part of a multidisciplinary team working to optimize patient outcomes. And, you'll learn how to contribute to the athletic training profession and your orthopedic/sports medicine team through team building research, teaching, and leadership skills.

### Residency Program Mission Statement

To advance the athletic trainer resident's preparation as a provider of patient care in the specialty area of Orthopedics and create the groundwork for athletic trainers to become a multifaceted and intricate member of the interdisciplinary healthcare team.

### Residency Program Vision

This program emphasizes a proactive approach to efficient and effective clinical management of injuries and medical conditions within a sports medicine and orthopedic clinic environment. We seek to establish a foundation of excellence for certified athletic trainers who seek to be employed within the physician practice setting.

### Residency Program Goals

- Advance the athletic trainer's knowledge within the specialty area of orthopedics
- Advance the athletic trainer's clinical decision-making skills and practice within orthopedics
- To participate as part of the intradisciplinary care team, optimizing the quality of care provided to patients.
- Contribute to the athletic training profession through research, teaching, and/or leadership skills

### Learning objectives

- Provide an advanced plan of study in orthopedics through a detailed and structured curriculum
- Provide clinical rotations to allow the athletic training resident the opportunity to progress clinical decision-making skills and practice
- Provide opportunities for athletic training residents to participate in interdisciplinary collaboration
- Provide opportunities for the athletic training resident to participate in research, teaching, and/or leadership skills.

## Outcome Measures

### **Advance the AT depth of knowledge within the specialty area of orthopedics**

- Diagnostic Accuracy Log
- Pre- and post-test orthopedic knowledge accumulative scores
- Residency Milestones Evaluation
- Clinical Competency Evaluations
- Case Study and Question-of-the-Week (QOW) Presentations

### **Advance athletic trainer's clinical decision-making skills and practice within orthopedics**

- Diagnostic Accuracy Log
- Residency Milestones Evaluations
- Clinical Competency Evaluations
- Clinical patient care evaluations

### **To participate as part of the interdisciplinary care team, optimizing that quality of care provided to individual patients.**

- Residency Milestone Evaluations
- Clinical Competency Evaluations

### **Contribute to Athletic Training profession through research, teaching, and/or leadership skills.**

- Question-of-the-week presentations: assigned by residency program director
- Case study Presentation Assessments
- Submission for presentations at local, regional, and/or national conferences; and/or submission of manuscript of research project or case study into a professional journal.

## CAATE Accreditation

St. Luke's Athletic Training Residency Program is in good standing with the Commission of Accreditation on Athletic Training Education.

## Admission Requirements:

### Qualifications

- NPI Number
- Athletic Training Licensure (or eligibility) in the State of Idaho
- BOC Certification
- Bachelor's degree required
- Master's degree required
- 2 years' experience as a Certified Athletic Trainer (preferred)
- CPR/AED Certification (must be completed through the American Heart Association)

### Application

- NPI Number
- 2 years' experience as a Certified Athletic Trainer (preferred)
- Proof of CPR/AED Certification (must be completed through the American Heart Association)
- Cover letter
- Resume/Curricula Vita
- 3 letters of recommendation
- \$25 application fee, made out to St. Luke's Sports Medicine - AT Residency, to be included with application materials.

All application materials need to be mailed to:

**St Luke's Sports Medicine**  
**Attn: Forrest Pecha**  
**1109 W Myrtle Street, Suite 200**  
**Boise, ID 83702**  
[pechaf@slhs.org](mailto:pechaf@slhs.org)  
**208-706-9363**

## Residency Program Curriculum:

### Program Educational Components

Below is a sample of the educational components for the Athletic Training Residency, additional information regarding program curriculum can be found under the program documents section of the policy and procedures manual.

#### **Clinical and administrative responsibilities related to patient centered care**

- Orthopedics, sports medicine, primary care sports medicine, extremities, family practice and primary care settings
- Evaluations completed after each clinical rotation

#### **Radiology education: radiographs and advanced imaging (8 wks.)**

- Didactic and one-on-one with St Luke's MSK Radiologists

#### **Participation in Monthly Radiology MSK Grand Rounds**

- Assist with organization of grand rounds
- Discuss interesting or complicated cases with MSK radiologists, physicians, and athletic trainers
- Discuss radiology interventions and findings

#### **Operating Room Assisting: Didactic and Application**

- Complete OR curriculum designed by St Luke's OR education, didactic, skills labs, and assessment of skills
- Training with SL OR education team, SLSM orthopedic providers and PA-Cs

#### **Diagnostic Ultrasound training:**

- Didactic and one-on-one training with SLSM physician preceptor (6wks.)

#### **Casting application and techniques**

- Didactic and one-on-one with clinical casting specialists

#### **DME application and techniques**

- Didactic and one-on-one training with CME clinical specialist
- Residency Rotation in DME: business of DME, CMS compliance (2 wks. immersive)

#### **Question of the week (QOW) presentations**

- Residents will be given a medical question/pathology and will be required to write a short, one-page answer to the question, including references.
- Evidence based, epidemiologic presentation of common and complex orthopedic pathologies
- Present information to St Luke's AT and PT residency faculty and staff

#### **Case Study Presentations**

- Quarterly presentations in collaboration with St Luke's PT SCS Residency
- Presentations to St Luke's orthopedic faculty and staff
- Third case study is presented at St. Luke's Monthly Sports Medicine Conference Series

#### **Participation and/or attendance at conferences sponsored by St. Luke's Sports Medicine**

- Attendance at monthly sports medicine meetings which discuss various topic presents by MD, PTs, PA-Cs, and Athletic Trainers in the community

## Representation of St. Luke's Sports Medicine at designated athletic venues by providing medical coverage

- o Collaborate with St. Luke's Sports Medicine Outreach program to assist with providing medical coverage for various events

## Exposure to rehabilitation concepts throughout the treatment process

## Instructional Resources

St Luke's athletic training residents will have unlimited access to Journals, eBooks, Databases, and Print Books via the St. Luke's website. Library resources can be found via:

<https://www.stlukesonline.org/health-services/health-information/health-library>

Additional instructional resources are provided to residents during the residency year are listed in the curriculum guide.

St Luke's Athletic Training Residents have a dedicated desk and workspace available to them at the Myrtle Street office. They also have access to a meeting space at the Myrtle Street office and can reserve meeting rooms at other St Luke's facilities via outlook. In addition, residents may travel to the following locations depending on provider schedules:

### **Myrtle Street Sports Medicine Office**

1109 W Myrtle Street #200  
Boise ID 83702

### **Meridian Medical Center- Orthopedic Office #3213**

520 S Eagle Rd  
Suite 3213  
Meridian, ID 83642

### **Nampa Medical Center**

9850 W St. Luke's DR  
Suite 215  
Nampa, ID 83687

### **River Street Orthopedic Surgery Center**

1425 W River Street  
Boise, ID 83702

### **Elks Rehabilitation Hospital Surgery Center**

600 N Robbins Rd #400  
Boise, ID 83702

### **Meridian Medical Center**

520 S Eagle Rd  
Meridian, ID 83642

### **Boise Medical Center**

190 E Bannock ST  
Boise, ID 83712

## Athletic Training Residency Policies:

### Retention Policy

#### **ATRs must fully participate in all required didactic and clinical experiences.**

- If an ATR is unable to attend any didactic or clinical experiences, due to illness, travel, etc., a written request must be submitted to the Residency Program Director (PRD) and Residency Medical Director (RMD) for approval.

#### **ATRs must maintain minimum satisfactory scores on all clinical evaluations pertaining to each rotation within the SLATR.**

- If at any time an ATR is evaluated as “unsatisfactory” within any rotation, the ATR and RPD will meet weekly to determine and implement educational steps and actions required to obtain satisfactory scores.

#### **ATRs must adhere to St. Luke’s Health System mission and ICARE values.**

- ATRs are introduced to St. Luke’s mission and values through new employee orientation and evaluated by the RPD after 90 days of employment.

#### **ATRs must adhere to policy and procedures set forth in St. Luke’s employee handbook.**

- Employment disciplinary actions are consistent with St. Luke’s HR policies.

### Resident Hours Policy

The daily demands of the residency will vary according to specific schedule of the physician clinic who they will be supporting each day. It is critical that the ATR is aware of the specific demands of each clinic in accordance with the specific requirements of each physician practice. The schedule of daily activities and expectations of the ATR will come directly from the program preceptor, physician supervisor, clinical athletic training staff, or the Residency Program Director. Residents will be allotted one half day (4 hours) period per week dedicated to research and scholarly activities. St. Luke’s Athletic Training Residency falls under the duty standards from the ACGME.

### Leave of Absence

A resident may apply for a leave of absence from St. Luke's Health System using the process described in Employee Handbook Section V. on page 45 after notifying the program director. A resident may not apply for a leave of absence to avoid dismissal for from the residency.

Residents are afforded all rights in this regard as outlined by University policy. However, in order to successfully complete the residency, the resident may miss no more than six weeks of time engaged in the residency, consistent with CAATE standards. Extension or exception to this policy will be determined based on student performance solely by the Residency Program Director in consultation with the Residency Medical Director.

### Suspension or Dismissal

St. Luke’s Athletic Training Residency Program reserves the discretionary right to suspend or dismiss any resident from the program for failure to maintain a satisfactory academic record, acceptable personal behavior, or for other reasons of health, safety, or welfare of our patients. It is our policy that no progress can be made toward completion of the residency during a period in which the resident is suspended from the program for disciplinary reasons.

## Corrective action

St. Luke's Athletic Training Residency follows St. Luke's Health System Corrective Action Policy which can be found on page 21. of the St. Luke's Health System Employee Handbook. Corrective action process is intended to provide a structure and plan to remedy behavior and performance problems before the employment relationships is ended with involuntary termination. Corrective action may include coaching, written warning, subsequent written warning, involuntary termination. These steps may not be applicable to each situation.

## Grievances

The St. Luke's Athletic Training Residency program follows the St. Luke's Health System Grievance Policy HR088 SLHS which can be found on the St. Luke's Intranet under Human Resources.

## Withdrawal

If the resident wishes to withdraw from the residency program, they must notify the Residency Program Director and the Residency Medical Director in writing.

Due to the resident's employment status with St. Luke's Health System as being hired as an "athletic training resident", their employment is contingent upon status within the residency program.

## Benefits Information:

### Benefits

St. Luke's Athletic Training Residents are full time exempt employees of St. Luke's Health System. As full-time employees, they are eligible for health, vision, and dental insurance. Employees are also eligible for paid time off accrual, extended sick leave accrual, long term disability, group and supplemental term life insurance, bereavement leave, tuition/ certification reimbursement, and adoption reimbursement. Additional information regarding benefits can be found on the St. Luke's intranet and in the St. Luke's Health System Employee Handbook.

### Vacation

Paid time off program is used for vacation, holiday, and short-term illness/injury. Exempt employees begin accruing PTO immediately and are eligible to use it after completing one two-week pay period.

Full-Time Exempt Employees accrual rate per eligible hours is .08846 with a maximum accrual per pay period of 7.077 hours. The maximum 8-hour days per year of PTO accrued is 23 days.

Additional information regarding PTO is located in the employee handbook and on the St. Luke's Human Resources website.

### Holiday Pay

St. Luke's recognizes the following days a holiday: New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. Exempt Employees will be deducted PTO hours for holiday pay if facility is closed.

### Compensation

The resident will receive a salary stipend, full benefits, and continuing education budget over their twelve-month residency program. Salary is based on years of experience practicing athletic training and determined by St. Luke's Human Resources department. Minimum pay rate starts at \$14.50/hour.

### Continuing Education Funding

Residents have the opportunity to attend multiple athletic training events and educational conferences throughout the year. Funding for continuing education opportunities is at the discretion of the residency program director.

### Program Costs

There are no associated program costs outside of living expenses. Residents must submit expenses related to the program via St. Luke's ERM for reimbursement with approval from RPD.

### Equal Opportunity Employer

St. Luke's is an equal opportunity employer and does not discriminate against any person on the basis of race, religion, color, gender, gender identity, sexual orientation, age, national origin, disability, veteran status, or any other status or condition protected by law. We provide equal employment and advancement opportunities to all individuals and base employment decisions on merit, qualification and abilities. Employment decisions are made, and personnel programs administered without regard to status in any protected class.

## Confidentiality

St. Luke's requires all employees to protect and maintain the confidentiality of all information regarding patients, customers, physician credentialing, peer review, quality review, committee records, personnel records (including employee health-related information), electronic communications (including hardware, software, voice and electronic mail, and Internet communications), and business affairs and operations information. In accordance with HIPAA regulations, you should access confidential patient and/or employee information only in accordance with your job responsibilities. All employees must review and abide by St. Luke's HIPAA policies.

A breach of this policy could result in undesirable consequences for St. Luke's and for you. Any unadvised comment can also disturb a patient or employee and can be very damaging to St. Luke's. Medical or personal information about a patient or employee should never be divulged to anyone, unless specifically outlined in your department's policies.

Nothing in this Confidentiality section or in this handbook is intended to or will be interpreted to prohibit the discussion of wages or other terms and conditions of employment with other employees or individuals.

## Residency Program Directory:

### Medical Director:

#### **James T Beckmann, MD, MS:**

James Beckmann is fellowship trained in sports medicine and a board-certified orthopedic surgeon specializing in arthroscopy of the hip, knee, and shoulder. Dr. Beckmann completed medical school at Case Western Reserve University as a part of the Cleveland Clinic followed by his orthopedic residency at the University of Utah and then a fellowship at Stanford University. He serves as an orthopedic team physician for US national soccer teams, local professional teams and many high school and local community events. His research interests include measuring patient outcomes in non-arthritic hip surgery. In 2017, he was selected as 1 of 2 individuals by the International Society of Hip Arthroscopy for a traveling fellowship which included 6 individual opportunities to work with and learn from international leaders in hip arthroscopy.

### Residency Program Director:

#### **Forrest Pecha, MS, LAT, ATC:**

Forrest Pecha, MS, LAT, ATC serves as Manager of Athletic Training Residency at St. Luke's Sports Medicine In Boise ID. He developed St. Luke's post-professional, CAATE accredited, athletic training residency program and the athletic training residency program at Emory Sports Medicine in Atlanta GA. Forrest currently serves on the CAATE post professional review committee and as a site visitor for post-professional residency programs. He has also served the CAATE as a member of accreditation conference planning committee and post-professional education transition team. He served the Board of Certification on the recent athletic training practice analysis, 7th addition, and on the practice analysis for orthopedic specialty certification.

Forrest has served on numerous NATA committees, including CIC, CPAT, and COPA as both a district representative and at-large member, he also served as the NATA liaison to the American Orthopedic Society for Sports Medicine (AOSSM). Forrest was awarded the NATA Most Distinguished Athletic Trainer in 2018 and NATA Athletic Training Service Award in 2012. He also serves as the president for the newly formed Athletic Trainers in the Physician Practice Society, (ATPPS).

Forrest has been invited to speak nationally and internationally on the clinical roles, improving physician practice efficiencies, and the implementation and utilization of athletic trainers. He has been published multiple times through both peer-reviewed journals and professional articles on the value of athletic trainers. He is also a reviewer for Journal of Athletic Training, Athletic Training Education Journal, and Sports Health.

Forrest was the head athletic trainer for the U.S. Men's Alpine Ski Team, participating in the 2002 Olympic winter games, and continues to work as a rotational athletic trainer for U.S. Soccer through the youth and national team programs.

Forrest earned his bachelor's degree from the University of Wisconsin - La Crosse, and his master's degree from Illinois State University.
