How we can help

Employer Presentations

Supporting your employee wellness needs

- Cancer prevention and awareness topics including:
 - General cancer
 - Skin cancer
 - Colorectal cancer
 - Breast cancer
 - Vaping and tobacco education
- Other cancer and wellness topics as requested

Youth Education

Helping students learn about healthy behaviors and reducing cancer risk

- Engaging, age-appropriate presentations on topics such as:
 - “Save Your Breath!”: Tobacco/vape education for 4th/5th grade
 - “Vape is Not Great”: Vaping education for middle/high school
 - “Love the Skin You’re In”: Skin cancer education for middle school
 - “Save Your Skin: The choice is yours”: Skin cancer education for high school
 - “Pool Cool © ”: Sun safety education in a public pool setting
 - “Healthy Habits for a Healthy You”: Healthy eating and physical activity for all grades
- Other opportunities to educate students about health and wellness, including:
 - Children’s interactive digestive inflatable - optional 1/2 or full day event
 - Display to discuss healthy eating using MyPlate and 5-2-1-0 messaging
 - Beach ball activity game
 - Senior projects

Interactive Tools

Raising awareness through hands-on activity

- Facial Skin Analyzer: see for yourself - sun damage and UV protection
- “IC”: walk through a giant Inflatable Colon to learn about the stages of colorectal cancer
- Children’s Digestive Health Inflatable: discover the stages of digestion
- Booth Displays: colorectal, skin, and breast cancer prevention
