Part X, Line 2:

Footnote Disclosure - Uncertain Tax Positions Under ASC 740 (Source:

Consolidated Financial Statements-St. Luke's Health System Fiscal Year

2022)

Income Taxes - The Health System is a not-for-profit corporation and is

recognized as tax-exempt pursuant to Section 501(c)(3) of the Internal

Revenue Code of 1986, as amended. The Health System has activities that

are considered unrelated business taxable income (UBTI), which are subject

to excise tax. The Health System also has two taxable subsidiaries, SLHP

and the Plan whose operations are included in the consolidated financial

statements and as such we have provided for income taxes on this activity

**Part XIII Supplemental Information** (continued)

under the Accounting Standards Codification (ASC) 740.

For the Health System's taxable subsidiary and activities considered UBTI, income taxes are accounted for under the asset and liability method, which requires the recognition of Deferred Tax Assets (DTAs) and Deferred Tax Liabilities (DTLs) for the expected future tax consequences of events that have been included in the consolidated financial statements. Under this method, the Health System determines DTAs and DTLs based on the differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on DTAs and DTLs is recognized in results of operations in the period that includes the enactment date of the rate change.

The Health System recognizes DTAs to the extent that these assets are more likely than not to be realized. In making such a determination, the Health System considers all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. If the Health System determines that DTAs are realizable in the future in excess of their net recorded amount, the Health System would make an adjustment to the DTA valuation allowance, which would reduce the provision for income taxes.

The Health System records uncertain tax positions in accordance with ASC 740 on the basis of a two-step process in which (1) the Health System determines whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2)

**Part XIII Supplemental Information** *(continued)*

for those tax positions that meet the more-likely-than-not recognition

threshold, the Health System recognizes the largest amount of tax benefit

that is more than 50 percent likely to be realized upon ultimate

settlement with the related tax authority. Management is not aware of any

uncertain tax positions that should be recorded.

Part V, Section B, Line 5: A series of interviews with people

representing the broad interests of our community are conducted in order

to assist in defining, prioritizing, and understanding our most important

community health needs. Many of the representatives participating in the

process have devoted decades to helping others lead healthier lives. We

sincerely appreciate the time, thought, and valuable input they provide

during our CHNA process. The openness of the community representatives

allow us to better explore a broad range of health needs and issues.

The representatives we interview have significant knowledge of our

community. To ensure they come from distinct and varied backgrounds, we

include multiple representatives from each of the following categories:

Category I: Persons with special knowledge of public health. This includes

persons from state, local, and/or regional governmental public health

departments with knowledge, information, or expertise relevant to the

health needs of our community.

Category II: Individuals or organizations serving or representing the

interests of the medically underserved, low-income, and minority

populations in our community. Medically underserved populations include

populations experiencing health disparities or at risk populations not

receiving adequate medical care as a result of being uninsured or

underinsured or due to geographic, language, financial, or other barriers.

Category III: Additional people located in or serving our community

including, but not limited to, health care advocates, nonprofit and

community-based organizations, health care providers, community health

centers, local school districts, and private businesses.

Each potential need is scored by the community representatives on a scale

from negative six (-6) to six (6). A high score signifies the

representative believes the health need is both important and needs to be

addressed with additional resources. Lower scores typically mean the

representative believes the need is relatively less important or that it

is already being addressed effectively with the current set of programs

addressing these needs to improve community health.

**Significant Health Needs**

(1) Health Behaviors - Substance Use Disorder Prevention and Treatment

(2) Clinical Care - Availability of Behavioral Health Services

(3) Social and Economic Factors - Services for Children and Families

**Experiencing Adversity**

(4) Physical Environment - Accessible Modes of Transportation

The following implementation plan illustrates the strategies St. Luke's

most significant health needs identified in our 2022 Community Health

Needs Assessment for Nampa.

(1) Health Behaviors Substance Use Disorder Prevention and Treatment

The effects of substance misuse are far-reaching. They can impact almost

every organ in the human body. In fact, more deaths, illnesses and

disabilities are associated with substance misuse and abuse than any other

preventable health condition, including tobacco and poor diet/lack of

physical activity.

majority of community grants, cash, and in-kind donations at the system

Both Idaho and our service area are comprised of about a 95% white population while the nation, as a whole, is 76% white. The Hispanic population in Idaho represents 13% of the overall population and about 26% of our service area.

Idaho experienced a 14% increase in population from 2010 to 2019, ranking it as one of fastest growing states in the country. Canyon County has followed that trend, experiencing an even more rapid 22% increase in population within that timeframe.

Since the year 2000, the 45- to 64-year-old age group has been the fastest growing segment of our service area. Currently, about 14% of the people in our community are over the age of 65.

A complete copy of the Form 990 is made available to the Board of Directors prior to filing.

Form 990 Part V, Line 1 & 2

Accounts payable and payroll process are consolidated at the supporting organization level (St. Luke's Health System, Ltd). Therefore, corresponding reporting for 1099's and W-2's occurs at that level.

Form 990, Part VI, Section B, Line 12c:

Persons covered under the policy include officers, directors, senior executives, non-director members of Board committees, and others as identified by a senior executive. At all levels the board is responsible for assessing, reviewing, and resolving any conflicts of interest that have been disclosed by a covered person, or a conflict of interest disclosed by a covered person with respect to a covered person other than himself/herself. Where a conflict exists, the affected parties must recuse themselves from participating in any discussion and/or vote related to the conflict.

aggregate of those surveyed. These surveys are usually done annually.

St. Luke's Health System is committed to providing the highest quality medical care to all people regardless of their ability to pay. To keep that commitment, St. Luke's puts a great deal of time and effort into recruiting and retaining the top physicians in a variety of medical fields. Our relationships with physicians range from having privileges at the hospital to full employment.

For those physicians who choose to be employed, St. Luke's must offer competitive pay and benefits.

Physician compensation is based on a range of criteria and can be influenced by a number of variables including:

- Community need for medical specialty
- Experience
- Productivity
- Geography
- National surveys adjusted for local conditions
- Willingness to serve regardless of patients' ability to pay
- Duration of relationship and contractual terms
- Performance on quality metrics

To ensure physician compensation and benefits remain within industry standards and legal requirements for not-for-profit institutions, St. Luke's has a Physician Arrangements policy that specifies circumstances requiring a third-party valuation and also periodically uses third-party

consulting firms to review St. Luke's physician compensation arrangements.

Given the growing national shortage of physicians, recruiting and retaining physicians is more critical than ever to guarantee that people seeking care at St. Luke's will continue to have access to the physicians and specialists they need regardless of their insurance status or insurance provider.
