

St. Luke's by the Numbers 2024

McCall Overview

St. Luke's McCall Medical Center is a critical access hospital serving Valley, Adams and Idaho counties, and is a leader in health and wellness promotion. Founded in 1956 as McCall Memorial Hospital, the medical center and clinics integrated with St. Luke's Health System in 2010. In 2023, we opened an expanded, modernized hospital and a new urgent care in the community. Our local network includes clinics in McCall, New Meadows and Riggins.

All numbers are current as of the fiscal year ending Sept. 30, 2024.

A snapshot of community benefits

\$1.4 Million
Charity care

\$4.8 Million
Total under-reimbursed care

Every day, I receive comments from our community on the improved access to care the new hospital and new urgent care have provided. Our community is extremely appreciative of the quality of services they are receiving at these locations as well as the improved access to acute care appointments; Emergency Department beds; and increase in respiratory therapy, labor and delivery, and surgical services.

— Amber Green,
Chief Operating Officer/Chief Nursing Officer,
St. Luke's McCall Medical Center
