St. Luke's by the Numbers 2024

Treasure Valley Overview

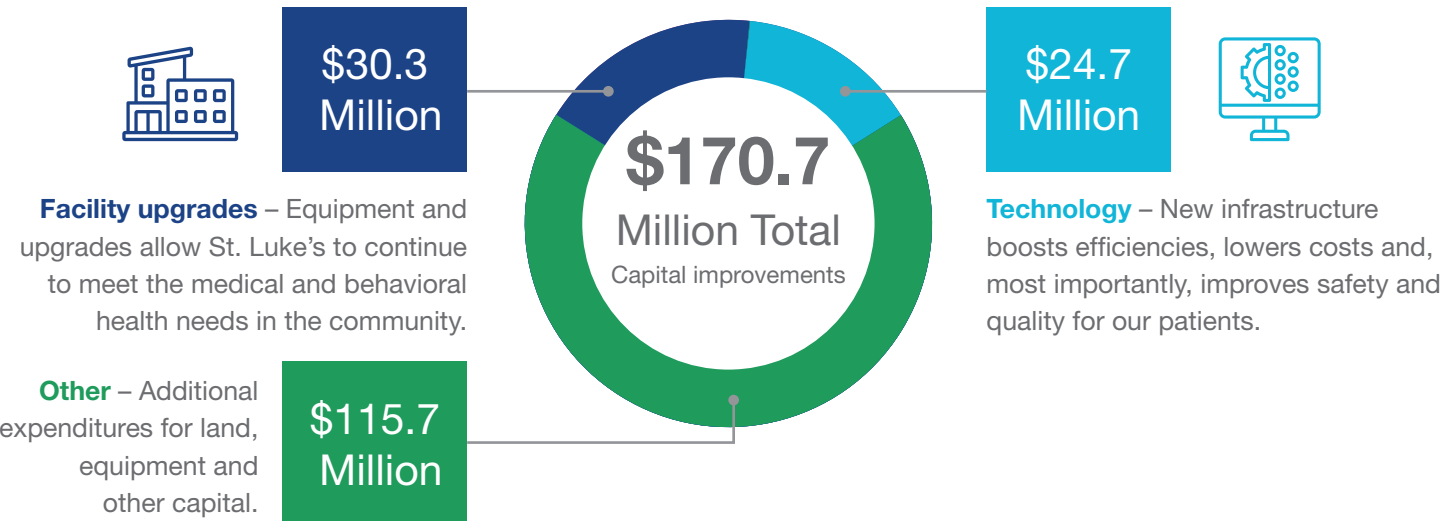

St. Luke's in the Treasure Valley serves the growing cities of Boise, Meridian, Eagle and beyond. St. Luke's Boise is Idaho's largest health care provider, the flagship hospital of St. Luke's Health System and home to the state's only Children's Hospital. St. Luke's Meridian is a full-service medical center with the busiest Emergency Department in Idaho. Our Boise and Meridian hospitals and Treasure Valley clinics are Magnet-designated for nursing excellence.

All numbers are current as of the fiscal year ending Sept. 30, 2024.

What do capital improvements include?

One hundred percent of St. Luke's net revenue is reinvested into land, facilities, equipment and other capital supporting the hospital system's mission.

I am proud to see St. Luke's continue to meet demands for access to health care services, even as our community continues to grow and age. Boise's medical center construction project will add necessary inpatient beds and operating capacity to subspecialties including cardiovascular, oncology and neurosciences. Meanwhile, innovative programs such as Hospital at Home and On-Demand Virtual Care allow patients to receive care in comfortable, convenient settings without sacrificing the highest level of quality.

— Dennis Mesaros, Vice President of Population Health, St. Luke's Treasure Valley Region
