Upcoming dates for 2020!

Engage with nationally recognized physician leaders and health care experts in the art and science of leadership, and performance and quality improvement.

Seize the opportunity to change the practice of medicine and transform culture by acquiring successful process improvement tools.

Join with our practitioners and other health care leaders in a cutting-edge, collaborative learning environment. During this course your team will select an improvement project, and develop practical skills and models to solve problems, enhance care, and lead teams through change.

Experience PACE, an exciting, interactive learning program modeled after the highly successful, and well-known Physician Leadership Institute of Salem Health.

The Why
St. Luke's has achieved better outcomes and lower costs by implementing evidence-based care in a number of areas. We have made measurable, meaningful and sustainable improvements. However, as we assume greater risk with financial accountability for defined populations and invest in community health, it is imperative that we strengthen and expand the knowledge and skills of our physicians and staff to drive quality improvement. Partnering to Achieve Clinical Excellence is critical to this effort.

- “The opportunity to interact directly with nationally recognized physician leaders was invaluable.” – Dr. Robert Walker
- “I have found my people.” – Dr. Danielle Orchard
- “The fervor of the team gives me hope.” – Dr. Robert Korn

Submit Your Application
Ready to join a team? Apply now to be considered for the first PACE course that begins in March 2019. PACE teams have up to six members each and ideally resemble care teams, including physicians, clinicians, nurses, operational and other health care professionals. For an application, please request at PACE@slhs.org.
