For more than 40 years, MSTI has supported cancer research. At its  
inception, MSTI was a member of a small regional consortium of western  
cancer treatment centers. As the institution has grown, the commitment  
to research has deepened. In 2006, MSTI was recognized by the American  
Society of Clinical Oncology (ASCO) for excellence in clinical trial  
accrual. While the vast majority of research activity has involved  
participation in cooperative group trials, MSTI has also supported  
original clinical research.

MSTI's research department has expanded from its original footprint on the main campus in Boise, Idaho to include four additional MSTI cancer treatment clinics throughout southwest and south central Idaho. These clinics represent the regional direction of the entire MSTI program. Adult medical, gynecologic and radiation oncology research protocols are offered at all MSTI facilities. Pediatric and autologous stem cell transplant protocols are offered only at the MSTI site in Boise.

MSTI is accredited by the following agencies: Southwest Oncology Group(SWOG), Clinical Trials Support Unit(CTSU), Radiation Oncology Group(RTOG), Children's Oncology Group(COG), and Foundation for the Accreditation of Cellular Therapy (FACT). MSTI was most recently reviewed by SWOG, FACT, and CTSU in 2007, and COG in 2008. Accreditations are performed on a 3-year cycle.

In addition to therapeutic protocols, repository studies are also offered at MSTI. Approximately 40 protocols are available for adult medical and radiation oncology patient enrollment and approximately 60 protocols are available for pediatric oncology patient enrollment. The bone marrow transplant program has participated in clinical trials since its inception in March 1993 and MSTI has participated in clinical trials sponsored by Fred Hutchinson Cancer Center/PSOC, SWOG, BMT, CTN, and industry sponsored trials. Since 1997, the MSTI research program has participated in the National Marrow Donor Program/Center for International Blood and Marrow Transplant Research database/registry. MSTI concluded participation in the National Marrow Donor Program in

The Selenium and Vitamin E Cancer Prevention Trial (SELECT) opened enrollment in 2001 and 105 patients participated.

Form 990, Part VI, Section B, line 11:

The Form 990 is reviewed by an independent public accounting firm based on audited financial statements and with the assistance of the organization's finance and accounting staff. The final draft of the 990 is made available to the Finance Committee of the Board of Directors. The Board receives the final version of the Form prior to filing.

The organization annually reviews the conflict of interest policy with each board member and also with new board members. Persons covered under the policy include officers, directors, senior executives, non-director members of Board committees and others as identified by a senior executive. At all levels the board is responsible for assessing, reviewing, and resolving any conflicts of interest that have been disclosed by a covered person, or a conflict of interest disclosed by a covered person with respect to a covered person other than himself/herself. Where a conflict exists, the affected parties must excuse themselves from participating in the

situation.

Form 990, Part VI, Section B, Line 15:

Executive compensation is set by St. Luke's boards of directors and is reviewed annually. Compensation levels are based on an independent analysis of comparable pay packages offered at similar institutions across the country, with the goal of placing executives in the 50th percentile of those surveyed. Similar analysis is also completed by St. Luke's leadership

for physicians and other health care specialties such as nurses and pharmacists. These surveys are usually completed every two years, with the most recent compensation survey completed during calendar year 2012.

St. Luke's Health System is committed to providing the highest quality medical care to all people regardless of their ability to pay.

To keep that commitment, St. Luke's puts a great deal of time and effort into recruiting and retaining the top physicians in a variety of medical fields. Our relationships with physicians range from having privileges at the hospital to full employment.

For those physicians who choose to be employed, St. Luke's must offer competitive pay and benefits.

Physician compensation is based on a range of criteria and can be influenced by a number of variables including:

-Community need for medical specialty

-Experience

132212  
01-23-12

Name of the organization Mountain States Tumor Institute	Employer identification number 82-0295026
---	--

-Productivity

-Geography

-National surveys adjusted for local conditions

-Willingness to serve regardless of patients' ability to pay

-Duration of relationship and contractual terms

-Performance on quality metrics

To ensure physician compensation and benefits remain within industry

standards and legal requirements for not-for-profit institutions, St.

Luke's has a Physician Arrangements policy that specifies circumstances

requiring a third-party valuation and also periodically uses third-party

consulting firms to review St. Luke's physician compensation arrangements.

Given the growing national shortage of physicians, recruiting and retaining

physicians is more critical than ever to guarantee that people seeking care

at St. Luke's will continue to have access to the physicians and

specialists they need regardless of their insurance status or insurance

provider.
